Rhododendrons, Azaleas and Rare Shrubs
SOUTHWEST CORONADO AND SIXTEENTH DRIVE
PORTLAND, OREGON

THIS HAS BEEN AN INTERESTING YEAR. Many new plants have bloomed, some that we have been waiting for years to see. A number of fine plants have been obtained, some quite new to us. Rhododendrons and other plants bloomed heavily and beautifully last spring and our display garden was a mass of color. Most pleasing of all, the many people who visited our gardens came from all parts of the country. It was most interesting to talk with them about their gardens and the plants they raise. Collecting rhododendrons has been our hobby for many years. We have specialized on species and dwarfs and our collection of dwarfs, both species and hybrid, is said to be the largest on the coast if not in the country. More than 100 kinds are planted in one bed where they put on a wonderful show each spring. Species rhododendrons are becoming more and more popular. Their difference in growth habits, size, flowers and wonderful foliage cannot be matched in any other plant family. Some are giant forest trees, small trees and large shrubs, small compact ones, others are dwarfs sometimes tiny creepers. Foliage and growth habit is often more interesting than flowers. Flowers come in all sizes, shapes and in an almost complete color range. Many of our species plants have come from private gardens, fine selected forms never before propagated. Selected for the following list are the type plants you will be happy with for they have that beauty of form and foliage that help so greatly in making a fine garden. We grow more than 500 kinds, some quite rare and so scarce that we do not have enough to list. If there is some special plant you are interested in, please write, we may have it. We also grow many other shrubs and small trees not in the rhododendron family. Priced in this list are the most economical sizes to ship. Larger sizes of many varieties are available, write for information. And whenever you are in Portland, we would be most happy if you would visit our display garden.

CLOSED SUNDAYS and during the month of August. But if you are from out of town or need some special plant immediately, phone us CH 4-9341, there is usually someone here. Or write and tell us when you will be in Portland.

TERMS OF SALE

Cash with order, F.O.B. Portland, Oregon. Minimum order \$3; if order is for less add 50¢ for packing. We do not substitute unless instructed to do so. It will help if you will list alternates in your order.

SHIPPING DATES: We can ship anytime on the west coast. We will ship in September to eastern points upon request. Most shipments will be made in April. If you want your plants at some definite time, let us know.

SHIPPING METHODS: We prefer to ship express. On the west coast we often ship auto freight. Small orders can be sent parcel post but allowance for postage must accompany order, add 15% of order, minimum 50 cents. No charge for packing. Not responsible for damages incurred in shipment, claims for damage must be made to transportation company.

GUARANTEE: Plants are guaranteed disease free and true to name. We do not guarantee those marked "seedlings" to come true. We are responsible for not more than the original purchase price of the plants. Claims must be made within 10 days of receipt of plants.

JOIN the American Rhododendron Society. \$5 annual dues includes 50 page illustrated quarterly bulletin. Write: Secretary-Treasurer, The American Rhododendron Society, 3514 N. Russet St., Portland, Ore.

If you want to know more about rhododendrons, order:

"RHODODENDRONS"

The 250 page illustrated book recently published by the American Rhododendron Society. Experienced amateurs and professionals tell how to grow these beautiful plants in our own country. \$4.25 postpaid. Order from the Secretary-Treasurer, address above.

RATINGS—These are the ratings, quality and hardiness, of the American Rhododendron Society. They were determined by a nation-wide survey and compiled by a committee of experienced growers, amateur and professional. They are the most accurate available for they are based on plant behavior under growing conditions in this country. The symbol x following plant name indicates the quality. xxxx is the highest rating. HEIGHT given following quality rating is that of plant when 10 years old.

HARDINESS RATING . . .

H1 Hardy to -25° F.

H2 Hardy to -15° F.

H3 Hardy to -5° F.

H4 Hardy to 5° F.

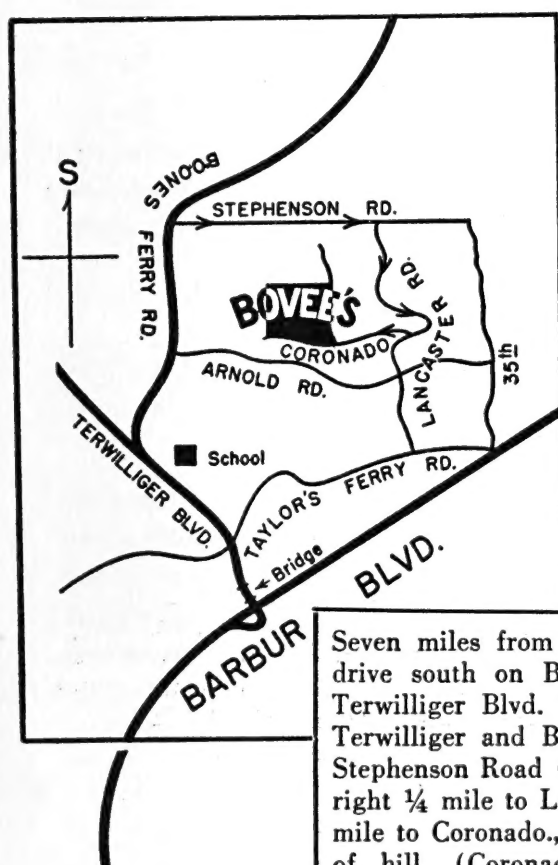

H5 Hardy to 15° F.

AWARDS are indicated following plant name as follows:

P.A. is the American Rhododendron Society "Preliminary Award" indicating that the plant has quality in the opinion of the judges.

F.C.C. is the First Class Certificate award of the Royal Horticultural Society, London.

A.M. is the Award of Merit of the Royal Horticultural Society, London.

. . . only
15 minutes
from city
center

Seven miles from downtown Portland; drive south on Barbur Blvd. to S.W. Terwilliger Blvd. Turn left and follow Terwilliger and Boones Ferry Road to Stephenson Road (yellow blinker), turn right $\frac{1}{4}$ mile to Lancaster Rd., right $\frac{1}{4}$ mile to Coronado., right 1 block to foot of hill. (Coronado St. is NOT cut through from Boones Ferry Road.)

Low Growing Hybrid Rhododendrons

In this list are plants which will fit your landscaping needs. Plants which are ideal in growth habit, leaf texture and flower for foundation plantings. Some are very low growing for the front of the border, for raised beds and rockeries. Others are pleasing for patio plantings and for tubs.

Adrastia xx 2 ft. H3 Early May

Low growing and spreading. Very deep pink bells. One of the best. 4"-6" \$3.50

Arthur J. Ivens A.M. xxx 3 ft. H2 April

Like Bowbells but with larger leaves and flowers. Lovely rose bells. 6"-8" \$3.50

Augfast xxx 3 ft. H3 April

Light green leaves, very compact. Fine violet-blue flowers. 6"-8" \$3

Beacon x 2 ft. H4 Late May

A very compact growing little dwarf with fine deep orange flowers. \$4

Blue Bird A.M. 3 ft.

Light blue-green leaves and clear blue flowers. Low compact growth. 6"-8" \$3

Blue Diamond F.C.C. xxx 3 ft. H3 April

One of the finest blue flowering dwarfs. Lavender-blue flowers and light blue-green leaves. 6"-8" \$3

Blue Peter A. M. xxx 4 ft. H2 Mid May

Very dark green leaves. Pale lavender-blue flowers with dark purple blotch. 8"-10" \$4

Blue Tit xxx 3 ft. H3 April

Low dense growth. Leaves light blue-green. Light blue flowers. A fine heavy blooming dwarf. 6"-8" \$3

Bo-Peep A.M. xx 4 ft. H3 March

Creamy-yellow cup-shaped flowers. Upright in growth. Very nice. 6"-8" \$3

Bowbells A.M. xxx 4 ft. H3 May

One of the finest rhododendrons. Beautiful rounded leaves, dense growth. New foliage copper-bronze. Rich pink bells. 6"-8" \$3.50

Bric-a-Brac A.M. xxx 3 ft. H3 March

Dark green, hairy leaves. Pure white flowers open flat. A fine dwarf. 6"-8" \$3

Brocade

Another of the very fine R. williamsianum hybrids with similar flowers but a different shade of pink. 6"-8" \$3.50

Brittania F.C.C. xxx 4 ft. H3 Late May

A fine red which blooms very heavily. Compact growth, bright red ruffled flowers. 8"-10" \$4

Broughtonii Aureum F.C.C. xxx 4 ft. H3 Late May

A lovely low-growing azaleodendron. Large yellow flowers. Heavy bloomer. Very attractive planted with Purple Splendour which blooms at the same time. 8"-10" \$3.50

- Carex Blush** xx 4 ft. H4 April
A fine early blooming blush pink. 8"-10" \$4
- Carmen** xxx 2 ft. H4 Late May
Very attractive with dark green leaves and waxy deep crimson bells. 4"-6" \$3.50
- Cilpinense** A.M. xxx 3 ft. H4 March
Very dark green hairy leaves and dense growing. Trumpet-shaped flowers are apple-blossom pink. 6"-8" \$3.50
- Conemaugh** xx 4 ft. H2 March
A fine dwarf. Rather open in growth when young but fills in to make a compact plant. Covers itself with lovely lavender-pink flowers. 6"-8" \$3
- Corona** A.M. xxx 4 ft. H3 Late May
A wonderful rhododendron with tall trusses of coral-pink flowers. Compact growth and good foliage. 6"-8" \$3.50
- Cowslip**
This beautiful plant comes from a cross between two top species, *R. wardii* and *R. williamsianum*. Similar in foliage to Bowbells but with smaller leaves, slower and lower growing. This is the pink form and several who saw it blooming here two years ago thought it as good or better than Bowbells. Often blooms when two years old from cuttings. Very scarce, limited one to a customer. \$4.50
- Cunningham's Sulphur** xx 3 ft. H3 April
Tight trusses of a good shade of yellow. Dark green foliage and dense growth. Often blooms again in fall. \$3
- Damaris** xxx 4 ft. H3 Mid May
A low rounded bush. Nice truss of lovely pale yellow flowers. 8"-10" \$4.50
- Devonshire Cream** xx 3 ft. H3 Mid May
Nicely rounded leaves and a compact habit of growth. Flowers are pleasing cream color, red in throat. 6"-8" \$3.50
- Dormouse** Probably H3
Another of the fine *Williamsianum* hybrids. Rose-pink bells. Scarce. 6"-8" \$3.50
- Eldorado** xx 3 ft. H4 April
Beautiful deep-cream cup shaped flowers. Foliage is very dark green. Needs protected location. 6"-8" \$3.50
- Elizabeth** F.C.C. xxx 3 ft. H4 May
Probably the most heavily blooming hybrid rhododendron. Covers itself with big bright red trumpets. Low spreading growth. 6"-8" \$3.50
- Elsbeth** xx 3 ft. H3 Mid May
A low spreading plant with good foliage. Should be an excellent red. Very scarce. 4"-6" \$3.50
- Ethel** Probably H3
Very low and spreading repens hybrid. Should be an excellent red. Very scarce. 4"-6" \$3.50

Euryalus

Low growing and spreading. Trumpets of a very attractive shade of salmon pink. 4"-6" \$3

Fabia var. Tangerine xx 4 ft. H4 Late May

Orange trumpets shaded deeper in throat. Low spreading growth. 8"-10" \$3

Fragrans Late May

An azaleodendron much admired at 1955 Portland show. Flowers rosy-lilac with white edge. Low and compact. 6"-8" \$3

Glow Probably 4 ft. and H3 June

Low compact growing Griersonianum hybrid which blooms in late June. Orange-red trumpets in loose truss. Good foliage. 8"-10" \$3.50

Goldsworth Yellow A.M. xx 4 ft. H2 Late May

Nice apricot yellow flowers on a low growing spreading plant. Very hardy. 10"-12" \$4

Grosclaude A.M. xx 3 ft. H4 Mid May

A fine hybrid with waxy deep red flowers in graceful truss. Handsome dark green leaves with light brown felt on under sides. 6"-8" \$3.50

Halcyone xx 4 ft. H3 Mid May

This is the pink form and very beautiful. Dainty apple-blossom pink flowers open quite flat. Nice foliage and low open growth. 8"-10" \$4.50

Harvest Moon A.M. xxx 4 ft. H3 Mid May

A fine yellow; creamy flowers with carmine blotch. Good foliage. 8"-10" \$4

Hawk A. M. xxx 4 ft. H3 Mid May

Upright open growth. Lovely cup-shaped sulfur yellow flowers. 8"-10" \$4.50

Helene Schiffner xx 3 ft. H4 Mid May

The whitest of the whites. Small flowers and a small tight truss. Dainty and lovely. \$4

Humming Bird Exbury form xxx 2 ft. H4 May

Very attractive dwarf. Graceful pink bells with deeper shadings. Dark green rounded leaves and very compact. 4"-6" \$3.50

Impeanum xx 1 ft. H3 April

Tiny leaves and twiggy compact growth. Covers itself with light blue flowers. 4"-6" \$2.50

Jaipur

A fine low spreading dwarf with dark green leaves and crimson flowers. 4"-6" \$3.50

Jock xxx 2 ft. H3 May

Flowers are very large and most attractive dark pink. Low and spreading. A lovely plant. 6"-8" \$3.50

Lady Alice Fitzwilliam xxx 4 ft. H5 Mid May

Open spreading growth. Fragrant white trumpets. Tender. 8"-10" \$3.50

Little Ben xx 1 ft. H3 April

Waxy scarlet bells in early spring. Dark green foliage. 4"-6" \$3.50

Little Bert xx 1 ft. H3 April

Taller growing than Little Ben. Flowers are similar but different shade of red. 4"-6" \$3.50

Little Joe

Another of the popular repens hybrids with red flowers and a taller more open growth. Leaves are most attractive. 4"-6" \$3.50

Margaret Dunn A.M. xxx 4 ft. H3 June

A fine low growing compact plant.. Apricot flushed pink, wide funnel shaped flowers. 6"-8" \$3

Margaret Dunn var. Golden Belle 4 ft. H3 June

Like the above but more yellow color in flower. Flowers are larger. 6"-8" \$3.50

Mars F.C.C. xxxx 4 ft. H2 Late May

A deep true red, it's one of the best. Good foliage and compact growth. 8"-10" \$4

May Day A.M. xxxx 3 ft. H3 Mid May

Low, spreading and a heavy bloomer. Lovely scarlet trumpets. New growth and under side of leaves covered with light brown felt. 6"-8" \$3

Moonstone xxxx 2 ft. H3 May

A truly fine dwarf. Has the fine growth habits and foliage of Bowbells. Attractive dark red buds open to creamy-yellow cup-shaped flowers. 6"-8" \$3.50

Mrs. Betty Robertson xxx 4 ft. H3 Mid May

Fine yellow flowers with carmine markings. Nice foliage and growth habits. 8"-10" \$4

Mrs. Furnival xxxx 4 ft. H3 Late May

One of the best pinks. Low, compact and often sets buds when only a year old. Tight trusses of clear pink flowers with darker blotch. 8"-10" \$4

Mrs. W. C. Slocock xxx 4 ft. H3 Mid May

A fine rounded bush with dark green foliage. Very compact. Tight trusses open creamy-pink fade to creamy-yellow. 6"-8" \$3

Naomi var. Exbury xxx 4 ft. H2 Mid May

Low growing. Nice rounded leaves. Flowers rosy pink flushed yellow. 8"-10" \$4.50

Naomi var. Nautilus xxx 4 ft. H2 Mid May

Grows like Exbury form but flowers are pale pink flushed creamy-yellow, frilled. 8"-10" \$4.50

Nereid xxx 2 ft. H3 Late May

A beautiful dwarf with handsome dark green leaves. Low growing. Lovely flower trusses have been described as "watermelon pink" color. 6"-8" \$3.50

Neriiapo

This comes from a cross between R. apodectum and R. neriiflorum. We have not bloomed it but it grows low and compact with fine foliage. Should have orange-red flowers. \$4.50

Nymph

A fine repens hybrid which grows very low and compact. Orange-red bells. 4"-6" \$3.50

Olympic Lady

A white flowered Bowbell type but has larger flowers which open quite flat. Very scarce. 6"-8" \$4

Peachblow

New. A fine low growing plant from the Barto collection. The name is descriptive of the lovely trumpet shaped flowers. 6"-8" \$4

Praecox xx 3 ft. H3 February-March

One of the earliest to bloom. Upright growing with attractive rosy-lilac flowers. 8"-10" \$3

Purple Splendour A.M. xxxx 4 ft. H2 Late May

In every way a fine plant. Many tight trusses of rich dark purple flowers, ruffled and with almost black blotch. 8"-10" \$4

Quaver (Leucaspis x sulfureum) Probably H4

Low growing with dark green foliage. Yellow flowers. 4"-6" \$3.50

Racil xxx 3 ft. H3 April

A fine dwarf with many shell-pink flowers in racemes. Upright open growth. 6"-8" \$3

Rainbow xx 4 ft. H3 Mid May

Flowers two tones of pink, darker edges. Nice foliage and compact growth. 8"-10" \$4

Rosy Bell xx 3 ft. H3 April

A fine low growing hybrid for the front of the bed. Pleasing bell shaped flowers, old rose. \$3.50

Rose Elf P.A. 1954 Probably 2 ft. H3 April-May

A new lovely heavy blooming dwarf with handsome leaves and dainty mauve-pink bells. 4"-6" \$3.50

Rosy Morn A.M. xxx H3 Late May

Here's a pink so good that it should be in every garden. Low and spreading with pleasing dark green rounded leaves. Beautiful trusses of soft pink flowers. \$4

Russautinii

One of the fine small-leaved hybrids similar to Blue Tit. Slightly more open in growth. Nice lavender-blue flowers. 6"-8" \$3

Sapphire xxx 2 ft. H3 April-May

Grown in full sun this fine dwarf makes low twiggy rounded mound. Tiny leaves and clearest, brightest blue flowers we have seen in a rhododendron. 4"-6" \$3

Serenade Probably H3 and 3 to 4 ft.

This plant, from a famous Portland garden, is one of the finest Triflorum type rhododendrons we have seen. Upright growth and good foliage. Forms a ball of very light clear pink flowers, a phlox pink. Blooms when very young. This is the first time ever offered. Very scarce, one plant to a customer. \$4.50

CLOSED SUNDAYS

Snow Lady P.A. 1956 Probably 3 ft. and H3 April
This fine dwarf, we think, is best of the low growing whites. Pure white flowers in clusters open flat like pansy, set off with black stamens. Often blooms when a year old. Attractive very dark green hairy leaves. 6"-8" \$3.50

Souvenir of W. C. Slocock xxx 3 ft. H3 Mid May
Low rounded very compact growing plant. Blooms heavily with tight trusses of primrose-yellow flowers which first come out pink. 6"-8" \$3

Sweet Simplicity xx 4 ft. H2 Late May
Most attractive two-tone white and pink flowers. Low, spreading; dark green leaves. Very hardy. 10"-12" \$4.50

Susan xxx 4 ft. H2 May
Low and widely spreading. Frilled lavender-blue flowers with darker blotch. Very hardy. 8"-10" \$4

Temple Belle xxx 2 ft. H3 Mid May
Has same fine foliage and growth habits of other R. Williamsianum hybrids. Lovely pale rose bell-shaped flowers. 6"-8" \$4

Tessa A.M. March
A fine very early blooming dwarf. Upright growth. Flowers are nice rose-pink in miniature trusses. 6"-8" \$3.50

Thomwilliams xx 2 ft. H3 April
A very slow and low growing R. williamsianum hybrid. Lovely deep pink bells. 6"-8" \$4

Treasure
From a cross of R. forrestii and R. williamsianum, this is the slowest and flattest growing plant we have seen. Small rounded leaves like a miniature R. Williamsianum. Said to have fine pink flowers, we have not bloomed it. Small plants \$4

Twinkles April-May
A new R. racemosum hybrid, low and open growing. Literally covers itself with pleasing pink flowers in racemes. \$3

Unique xxx 3 ft. H3 Early May
A low, compact, rounded bush with many tight trusses of rich cream flowers. A fine plant for a foundation planting. \$4

Vanessa "A" Form xx 4 ft. H4 Late May
Loose trusses of a beautiful shade of dark pink flowers set off with bright red throat. Low and spreading. 8"-10" \$4

Vega
A fine low growing dwarf. Dark green leaves with attractive light brown felt on reverse sides. Flowers in clusters, dark waxy red trumpets. \$3.50

Vulcan's Flame 4 ft. H3 Late May
The reverse cross of Vulcan and we like it better. Makes a low rounded shrub. Bright brick-red flowers. 8"-10" \$4

Wilbar

Lovely wine colored cup shaped flowers of heavy substance. Low and spreading, good foliage. A fine dwarf. 6"-8" \$3.50

Yeoman

Another of the fine repens hybrids. Very low growing, dark green leaves and tubular bright orange flowers. 4"-6" \$3.50

Yellow Hammer

Clusters of small bright yellow flowers are most attractive on this upright growing hybrid. Small dark green leaves. 6"-8" \$3.50

Tall Growing Hybrids

These are the accent plants for the garden, the specimen plants. Some of the big growing types are woodland plants. Two of them, Lady Roseberry and Lady Chamberlain, can be trained along the garden wall or over a trellis where their hanging tubular flowers and grey-green leaves put on a wonderful display. There is a plant in the rhododendron family for every landscaping need.

A. Bedford A.M. xxx 8 ft. H3 Mid May

Strong grower, fine foliage, tall truss of light blue flowers with darker eye. 10"-12" \$4

Azor type 6 ft. H4 June

This is the famous "Barto Azor." Tall grower and a finer and larger salmon-pink flower. 10"-12" \$4

Azor type #3 6 ft. H4 June

Similar to Azor but yellow flowers flushed red. 10"-12" \$4

Azor type #73 6 ft. H4 June

Similar to Azor but darker colored flower. Very nice. 10"-12" \$4

Bacher's Gold P.A. 1955 Probably 5 ft. H3 Mid May

A fine new hybrid. Good foliage. Compact growth. Lovely cup shaped flowers, old gold with a crimson throat. 8"-10" \$5

Bonito A.M. xxx 5 ft. H3 June

Good foliage and growth habits. A wonderful truss of enormous white flowers flushed pink. Beautiful. 8"-10" \$5

Butterfly xx 5 ft. H3 Mid May

Upright open growth. Handsome foliage. Pale lemon trusses. 8"-10" \$4

Carita A.M. xxxx 5 ft. H3 Mid May

Soft yellow flowers and a fine truss. Nice foliage, compact growth habits. 8"-10" \$5

China A.M. xxx 7 ft. H3 Mid May

Tall open growth. Very large leaves. Pale ochre flowers marked red in throat. 10"-12" \$5

Damozel A.M.

Big trusses of rosy-red flowers. Spreading growth habit. 8"-10" \$4

- David F.C.C.** xxx 5 ft. H3 Mid May
A beautiful truss of big blood-red flowers.
One of the best reds. 10"-12" \$4.50
- Earl of Athlone F.C.C.** xxx 5 ft. H4 May
Tight truss of blood-red flowers. Good foliage, heavy bloomer, open growing. Long considered a "top" red. 10"-12" \$4.50
- Electra** Probably H3
Tall upright growing Augustinii hybrid. Nice blue flowers. 8"-10" \$4
- Fragrantissimum** xxx 5 ft. H5 Late May
A tender open growing plant with enormous fragrant white trumpets. 8"-10" \$3.50
- Goldfort** xxx 5 ft. H3 Mid May
One of the new fine yellows. Open growing, nice foliage. Flowers are lemon-yellow with a greenish flush, tinged pink. 8"-10" \$4.50
- Idealist A.M.** xxx 5 ft. H3 Late May
For fine growth habits and beautiful flowers it's hard to beat. Open growing with big green-yellow flowers in enormous trusses. 8"-10" \$4.50
- Jan Dekens** xxx 6 ft. H3 Late May
One of the finest pink rhododendrons. Immense trusses of frilled deep-pink flowers. Beautiful heavy foliage, compact growth. 10"-12" \$4
- Jean Marie de Montagu** xxxx 5 ft. H3 Mid May
Deep green leaves and good growth habits. A really fine rhododendron with crimson flowers, good truss. 8"-10" \$4
- Kiev A.M.**
We have not bloomed this. It is quite new and considered a good red. 8"-10" \$4.50
- Lady Bessborough var. Roberte F.C.C.** xxx 5 ft. H3 May
Flowers are a beautiful pink shaded yellow. Rounded growth and good foliage. 8"-10" \$5
- Lady Chamberlain F.C.C.** xxxx 8 ft. H4 Mid May
Tall upright growth with rounded blue-green leaves. A fine plant for training on a trellis or wall. Tubular apricot-pink flowers. 8"-10" \$4.50
- Lady Chamberlain v. Golden Queen**
Similar to the above but a pleasing salmon pink. Only a few plants this year. 10"-12" \$4.50
- Lady Rosebery F.C.C.** xxxx 8 ft. H4 Mid May
Very like Lady Chamberlain but flowers are soft rose-pink flushed carmine. 8"-10" \$4.50
- Letty Edwards F.C.C.** xxxx 8 ft. H4 Mid May
A first-class plant in every way; good foliage, nice growth habits and a beautiful truss of soft yellow flowers with a greenish tinge. 8"-10" \$4.50
- Lodauric** xx 6 ft. H3 June
A beautiful rounded plant with dark green leaves that blooms in late June or early July. Big trumpets of fragrant white flowers with green throat. 10"-12" \$4.50

Loder's White A.M. xxxx 5 ft. H4 May

Long recognized as one of the best whites. Makes a rounded compact plant with beautiful frilled white flowers, petals edged pink. 10"-12" \$4.50

Loderi xxxx 7 ft. H4 May

These are among the finest of all rhododendrons with 5" to 6" flowers, ruffled and scented. Tall, vigorous growing. We list three varieties:

Loderi King George—Perhaps the finest white Loderi.

Loderi Game Chick—Also white and a consistent blue ribbon winner.

Loderi Venus—One of the best pinks in this group. 10"-12" \$4.50

Mission Bells P.A. 1956 Probably 5 ft. H3 Mid May

A new and lovely American hybrid. Light pink bell-shaped flowers. Very compact growth. Has the fine foliage typical of Williamsianum hybrids. 6"-8" \$3.50

Mrs. Lionel de Rothschild A.M. xxx 5 ft. H3 Mid May

A nice white with red blotch for contrast. Good foliage and big truss. 10"-12" \$5

Pilgrim A.M. xxx 5 ft. H3 Mid May

Large soft pink flowers in a wonderful truss. Good foliage and open growth. 8"-10" \$4

Polar Bear F.C.C. xx 6 ft. H3 July-August

One of the last to bloom. Tall, upright growing and good foliage. Pure white, fragrant flowers in July. 8"-10" \$4.50

Remo Probably H4

Tall and upright growing with yellow flowers. 8"-10" \$4

Sappho xx 5 ft. H2 Mid May

Tall and open growing with large white flowers strikingly blotched with deep purple. 10"-12" \$4.50

Snow Queen A.M. xxx 5 ft. H3 Mid May

A beautiful plant when grown in light shade. Tall trusses of the whitest of white flowers with red throat. 8"-10" \$4

Spring Dance Probably 4 ft. H3 Late April

"Like dancing lavender butterflies with frilly petticoats," said a gardener when she saw this in bloom last spring. This Triflorum hybrid has not before been propagated. The above description fits. It has dainty light lavender flowers and blooms heavily even when very young. A cheerful plant to have in your garden in early spring. \$3.50

CLOSED SUNDAYS

Species Rhododendrons

Rhododendron is said to be the largest plant family. It is a most interesting plant group. More than 1000 species have been found in China, Japan, Korea, India, America and other countries. There is an amazing difference in growth habits and leaf and flower size. Some rhododendrons are forest trees up to 80 feet high. One tree has leaves 30 inches long. There are small trees, large and medium growing shrubs; and there are dwarfs, some almost prostrate with tiny leaves and small flowers. Flowers are in many shapes and sizes and come in almost a complete color range. Most species rhododendrons are quite hardy and grow well and easily in light shade. Many, particularly dwarfs, will stand full sun in the north-west. Growth habits, beautiful foliage and great variations in flowers make them most interesting plants. Here are many of the best to choose from and we have others not listed. The plants listed are propagated by cuttings from Award plants or carefully selected forms. A few are seedlings and they are so marked.

R. augustinii and similar plants of the *Triflorum* series are most effective planted in groups. They are fine accent plants for the garden and have many uses in landscaping. They are tall, upright growing plants with narrow dark green leaves.

8"-10" size plants priced at \$3.

R. Augustinii xxxx 5 ft. H3 April-May

"Caprice"

Many have said this is the finest *Augustinii* they have ever seen. From a private collection and never before offered. Larger leaves than the type, the flowers are very large and a deep blue. Scarce, one plant to a customer.
\$4.50

"Exbury"

Flowers deep blue mauve with darker eye.

"Marine"

A fine deep blue from the famous Barto collection.

"Summer Skies"

Large flower in a pleasing shade of clear light blue.

"Towercourt"

A lovely shaped flower, dark blue without the eye.

R. Caeruleum var. Album A.M. xxxx 4 ft. H3 Mid May
A lovely variety with a pure white flower.

R. Chartophyllum xxx 5 ft. H3 April-May
Fine foliage and dainty near white flowers.

R. Chasmanthum "Blue Cloud" xxx 5 ft. H4 Early May
Similar to *R. augustinii* but often said to be on the tender side. That has not proved true with this famous plant from a private collection. It is at least 30 years old and has experienced all sorts of weather. A wonderful form with large leaves. Big flowers are beautiful light blue. Not before offered, limited one to a person. \$4.50

R. Davidsonianum xxx 4 ft. H4 April-May
Lovely pink flowers, spotted red.

R. Lutescens F.C.C. xxx 5 ft. H4 March
Bright bronzy-red leaves and shoots. Very large pale primrose-yellow flowers which open quite flat.
A selected form of this has deep yellow but smaller flowers.

R. Yunnanense xxxx 5 ft. H3 April-May
Very heavy flowering. Flowers are whitish-pink spotted red.

R. Yunnanense "Sonata"
Another fine plant which has been a collector's item and not before released. A wonderful pure white form with flowers spotted dark red and forming a round ball. Unusually large flowers. Scarce, one to a person, \$4.50

CLOSED SUNDAYS

Plants listed below are well established from the lath house or field and are priced at \$3 except where otherwise noted. Sizes will vary depending on growth habits as some are tree and shrub types and others very dwarf. Many are available in larger sizes, please write for prices.

R. Ambiguum x 3 ft. H4 April-May

Triflorum series, upright growing with yellow flowers spotted green.

R. Anthopogon Probably H2 1 ft. April

Unflowered seedlings of a fine dwarf plant. We believe these are true to name. Flowers could be pink or yellow. \$3.50

R. Apodectum xx 2 ft. H4 June

Neriiflorum series. Low growing, compact. Flowers orange to crimson.

R. Artosquameum x Mid May

Open growing shrub with grey-green foliage and rose flowers.

R. Brachyanthum var. **Hypolepidotum** 3 ft. H2 June

Glaucum series. Compact rounded bush, small dark green leaves. Flowers open chartreuse green soon changing to clear light yellow with orange tipped stamens.

R. Burmanicum xx 3 ft. H5 April

A pretty shrub with dark green hairy leaves and greenish-yellow flowers. Needs protection.

R. Calostrotum xxx 2 ft. H3 April-May

Saluenense series. A selected form with showy bright magenta-purple flowers which open quite flat. We also have a very dwarf form of this.

R. Camtschaticum x 1 ft. H2 Mid May

A deciduous very dwarf rhododendron which is quite scarce. Bright reddish-purple flowers 1 ½" across. Lovely. \$3

R. Campylocarpum xxxx 3 ft. H3 Mid May

A selected form. It is not as large flowered as some but a fine bright yellow. And, it literally covers itself with flowers which last a month or more. Sold out.

R. Chaetomallum xxx 3 ft. H4 April-May

Compact shrub of the Neriiflorum series. Fine foliage and beautiful deep crimson flowers.

R. Charitopes 1 ft. H2 April-May

Glaucum series. Low growing and graceful shrub. Clear apple-blossom pink flowers spotted crimson.

- R. Chloranthum** 4 ft. H2 June
A fine deciduous rhododendron, upright growing with yellow flowers, tinged green at base. \$3
- R. Chryseum** xx 1 ft. H2 April-May
Lapponicum series. Grow in full sun to make it compact. One of the best yellows in this series. \$3.50
- R. Ciliatum** xxx 2 ft. H4 April
A neat rounded spreading bush with dark green hairy leaves. Lovely white flowers tinged rose. We are propagating from a plant with larger leaves and flowers than the type.
- R. Concatenans** xxx 4 ft. H4 April-May
Upright but compact. Rounded blue-green leaves. Bell-shaped flowers, deep apricot color. Scarce. \$3.50
- R. Cremastum** 2 ft. H2
Campylogynum series. Neat small leaf rounded shrub with rose-purple nodding flowers on long flower stalks.
- R. Cuneatum** x 2 ft. H2 April
Lapponicum series. Small shrub with grey-green leaves and deep rose flowers.
- R. Decorum** xxx 4 ft. H4 Mid May
Many have seen our fine form of this. We are offering it for the first time. Compact growing, good foliage and lovely fragrant white flowers of heavy substance. \$3.50
- R. Degronianum** xx 2 ft. H3 Early May
Very rare and one of the finest dwarf rhododendrons. Makes a tight rounded compact bush. This is from a fine form with clear soft pink flowers with deep pink lines along the middle of the petals. \$4.50
- R. Dichroanthum** x 2 ft. H4 Late May
Neriiflorum series. Beautiful low growing plant with lovely foliage. Orange flowers.
- R. Didymum** xx 2 ft. H3 July
Rounded low-growing shrub with dark green leaves. Very deep black-crimson bells in June.
- R. Drumonium** xx 1 ft. H3 April-May
Lapponicum series. Grows flat and twiggy with pleasing mauve flowers.
- R. Erubescens** Probably H3 April
A fine April flowering shrub. Flowers white inside, rose-carmine outside.
- R. Eximium** xxxx H4
These are fine foliage plants. Raised from seed obtained from a reliable source, there

is some variation in the leaves. We do not guarantee them to be true to name but they will make wonderful plants. Three years old. \$4

- R. Exquisitum** xxx 4 ft. H4 Mid May
Triflorum Series. Blue-green rounded leaves, upright growing. Pale lavender flowers. Lovely.
- R. Fastigiatum** F.C.C. xxx 1 ft. H2 Late May
Lapponicum series. Twiggy, compact and widely spreading. Very pretty blue-purple flowers.
- R. Ferrugineum** x 2 ft. H2 Late May
The Alpine Rose of Switzerland. Very dark green foliage, under sides of leaves rust colored. Rosy-crimson flowers. Low growing.
- R. Fimbriatum** 2 ft. H2 April-May
Lapponicum series. Small compact growing shrublet. Deep mauve-purple flowers.
- R. Flavidum** xx 3 ft. H2 April
Lapponicum series. Very attractive upright growing shrub with glistening dark green leaves and bright yellow flowers.
- R. Forrestii** (formerly *R. Repens*) xxxx 1 ft. or less
H3 April-May
This fine plant is a creeping shrub from 6" to 1' in height. Small very dark green leaves, dense growth. Flowers are bright scarlet trumpets, quite large. Scarce. \$3.50
- R. Glaucophyllum** x 2 ft. H3 Mid May
Glaucum series. Neat low growing shrub with small aromatic leaves. Dainty pale-rose bells.
- R. Gymnocarpum** A.M. xx 3 ft. H3 April
This plant of the Taliense series often sets buds when two years old. Attractive dark green leaves, low and compact. Trumpet-shaped flowers, claret-crimson.
- R. Haematodes** xxx 2 ft. H4 Late May
Neriiflorum series. A very fine species. Deep green leaves, felted brown on under side. Brilliant scarlet-crimson flowers.
- R. Hanceanum** var. **Nanum** Probably H3 April
A lovely dwarf. Low growing, heavy blooming. Neat trusses of creamy-yellow flowers. Very scarce. \$3.50
- R. Hemitrichotum** x 2 ft. H3 April-May
Scabrifolium series. Upright growing shrub. Small dainty pale-pink flowers, red in the bud.
- R. Herpesticum** Probably H3 May
Very dwarf 1 foot shrub, dark green leaves, yellow to orange-red flowers.

- R. Hippophaeoides** xxx 2 ft. H3 April-May
Lapponicum series. Very dense and twiggy shrub with small grey-green leaves. Blooms heavily in spring and sparingly until frost. We offer three forms; light blue, deep blue and purple-blue.
- R. Hirsutum** x 1 ft. H2 June
Ferrugineum series. Rounded growing with attractive bristly leaves and small rose-pink to nearly scarlet flowers.
- R. Impeditum** xxx 1 ft. H2 April-May
Lapponicum series. Low twiggy shrub that makes a rounded mound when grown in full sun. Attractive purplish-blue flowers.
- R. Intricatum** xx 2 ft. H2 April-May
Lapponicum series. Low dense shrublet for the rock garden or front of border. Dainty mauve flowers, tiny leaves.
- R. Johnstoneanum** xxx 3 ft. H4 April
Maddenii series. This is the selected Raffil form. A neat open bush. Very dark green hairy leaves. Fragrant pale yellow flowers spotted with red. Needs protection.
- R. Keiskei** xxx 3 ft. H2 March
Triflorum series. Very free flowering low compact shrub. Lemon-yellow flowers.
- R. Keiskei** xxx 18" H2 March
This is similar to the above but a very dwarf form which buds heavily when a tiny plant. Very small plants only. \$3
- R. Keleticum** xxx 1 ft. H2 Late May
Saluenense series. Lovely very dwarf twiggy alpine with tiny glistening leaves. Deep purplish-crimson flowers. Fine.
- Lapponicum Series HU 14444** Probably 2 ft. and H2 April
Attractive little upright growing shrublet which has not been named. Blooms heavily. Flowers are bright light purple.
- R. Lepidostylum** 1 ft. H3 May-June
Very scarce and always in demand because of its lovely grey-green foliage and tight compact habit of growth. Flowers funnel-shaped, pale yellow. Very small plants. \$3.50.
- R. Leucaspis** xxxx 1 ft. H4 February-March
Boothii series. A selected form which is very low and compact growing. Four year old plants are only 4" tall and 10" across. Fine dwarf with dark green hairy leaves and dense growth. Flowers open flat, are milky-white with black tipped stamens.
- R. Litangense** x 2 ft. H2 April
Lapponicum series. Low growing and quite compact. Plum-purple flowers.

- R. Lysolepis** 2 ft. H2 Early May
A lovely shrublet of the Lapponicum series, small leaves and widely funnel-shaped flowers, purple.
- R. Macabeanum** xxxx 6 ft. H4
These are seedlings from imported seed from a reliable source. There is some variation in the leaves and we do not guarantee them to be true to name, but they are beautiful foliage plants. Three year old plants. \$4
- R. Microleucum** xx 2 ft. H2 Mid May
Lapponicum series. A dainty white flowered twiggy plant. Tiny leaves. Give it plenty of sun for dense growth. Lovely. \$3.50
- R. Moupinense** xxxx 2 ft. H4 April
Small spreading shrub with shiny leaves, funnel-shaped white flowers with pinkish flush. A fine dwarf. \$3
- R. Mucronulatum** xx 5 ft. H2 February-March
Dauricum series. A very hardy deciduous rhododendron. Bright rosy-purple flowers in January or February
- R. neriiflorum** xxxx 3 ft. H4 April
Rooted by cuttings from a very fine selected form which has proved quite hardy. Spreading shrub with crimson flowers, free flowering. Only a few plants this year. \$3.50
- R. Oleifolium** xx 4 ft. H3 April-May
Virgatum series. This erect growing lovely shrub was collected by Dr. Rock under No. 183. Very free flowering. Dainty pink-white bells. \$3.50
- R. Orbiculare** xxx 2 ft. H3 April
A beautiful plant with rounded leaves and very symmetrical habit of growth. Flowers rose-pink. \$3.50
- R. Oreotrephes** xxx 3 ft. H3 Mid May
Triflorum series. A selected form which is very beautiful. Clear mauve-pink flowers, up-right growing with attractive blue-green leaves. \$3.50
- R. Pemakoense** xxx H3 April
Uniflorum series. Our plant is very low growing. In 12 years is only 10" tall and 24" across. Blooms very heavily even when only a year old. Pinkish-purple flowers.
- R. Prostratum** xx 1 ft. H3 Mid May
Saluenense series. Low Shrubby plant with shiny green leaves, very flat growing, pink-violet flowers.
- R. Pubescens** xx 3 ft. H3 May
Similar in growth to *R. racemosum* with red stems but long narrow leaves. Literally loads itself with small pink flowers in racemes. A very beautiful dwarf. \$3.50

R. Racemosum xxxx 3 ft. H2 April-May

Virgatum series. A dainty and very free-blooming dwarf which should be in every collection. Can be kept very compact. Flowers in racemes, a good shade of pink.

R. Radicans xxx H3 Mid May

Saluenense series. Forms a low rounded mound about 4" high. Very dense with narrow shiny dark green leaves and dainty purple flowers.

R. Ravum x 2 ft. H2 Mid May

Lapponicum series. Low shrub with attractive grey-green leaves. Deep rose flowers.

R. Repens—see **R. Forrestii**

R. Riparium x 1 ft. H3 Mid May

Saluense series. Low growing, rather open shrub with small dark green leaves. Bright purple flowers with darker spots.

R. Rupicola 2 ft. H2 April-May

Lapponicum series. We think this is one of the best in this series. Small grey-green leaves and dainty deep plum-crimson flowers.

R. Russatum F.C.C. xxxx 3 ft. H2 Mid May

Lapponicum series. One of the very fine alpine rhododendrons. Upright but compact growth. Bright deep blue-purple flowers with a white throat.

R. Russatum—dark form

From the famous Barto collection. Similar to the F.C.C. form but with much darker purple flowers. Many consider it finer than the award form. \$3.50

Sanguineum Series Dr. Rock No. 6 Probably H3

From this batch of seed a few plants appeared with very dark green hairy leaves which glisten as though waxed and polished. Very dense growing. This plant has not bloomed but is well worth while as a fine foliage plant. In five years it is 15" high.

R. Sargentianum xxxx 6" H3 April-May

One of the choice and very scarce dwarf rhododendrons. Makes a rounded mound of dark green shiny leaves. Tiny lemon-yellow bells. Very small plants. \$3.50

R. Scintillans F.C.C. xx 2 ft. H3 April-May

Lapponicum series. Tiny leafed shrub, open in growth at first then makes a dense twiggy plant. Attractive flowers are a good blue. \$3.50

R. Scyphocalyx 3 ft. H4 June

Low-branched small shrub. Flower rose-orange, crimson, coppery or yellow.

- R. Searsiae** xx 4 ft. H3 April-May
A lovely upright growing shrub with clear mauve flowers. This is a good form.
- R. Shweliense** 3 ft. H3 Late May
A small neat shrub with pink flowers tinged yellow.
- R. Smirnowi** x 3 ft. H2 Mid May
Ponticum series. A lovely foliage plant. Low growing, long deep green leaves, creamy-white underneath. Rosy-purple flowers in tight trusses. Very hardy.
- R. Sperabile** xx 2 ft. H4 April
Neriiflorum series. Low growing bush, dark green leaves. Fine scarlet trumpets.
- R. Spiciferum** xx 2 ft. H3 April-May
Scabrifolium series. Low growing and widely spreading with bristly branches and leaves. Dainty deep-pink flowers, very free blooming. Lovely.
- R. Tapetiforme** Probably H2 April
A low growing shrublet with pink flowers.
- R. Teloepum** Probably H3 and 5 ft.
A fine foliage plant of the Thomsonii series with nice yellow flowers. \$3.50
- R. Telmateium** xx H3 April
Lapponicum series. Attractive low shrub with small leaves and deep rosy-purple flowers with white throat.
- R. Tephropeplum** xxx 2 ft. H4 April-May
Boothii series. This is the "Deliense" form which has larger leaves and flowers. A fine rounded bush and a profusion of dainty bell-shaped rosy-pink flowers.
- R. Thomsonii** xxx 5 ft. H3 April
Small three year old plants, not flowered, from selfed seed from a good form. A fine species, deep blood-red bells. \$4.50
- R. Trichostomum** xxx 1 ft. H4 Mid May
All of this group have small grey-green leaves and open twiggy habit of growth. Daphne-like flowers. This form which was formerly sphaeranthum has pink flowers. Var. ledoides has white flowers; var. radium pinkish-white.
- R. Uniflorum** 1 ft. H3
Very dwarf and very free flowering. Similar to *R. pemakoense*, but with darker pink flowers.

R. Villosum Towercourt form Probably H2 May

A selected form with bright magenta-purple flowers. Upright growing, bristly leaves, very free flowering.

R. Wardii

This is a very variable plant. It has many forms and all are good. It is one of the best species yellow rhododendrons and is the parent of many of the finest hybrids. *R. wardii* has pleasing rounded leaves and good growth habits. It is a plant which should be in every collection. We list here three distinct forms and will have others next year.

R. Wardii 3 ft. H4 Mid May

This fine form has won many ribbons at Portland shows. Rather open growing, dark green rounded leaves. Lovely yellow cup-shaped flowers. Very scarce. \$3.50

Var. Astrocalyx xxx 4 ft. H4 April-May

Open growing, rounded leaves and flat pale yellow flowers. \$3.50

Var. Croceum 3 ft. May

Upright but compact. Neat rounded leaves, open growth, saucer-shaped yellow flowers. \$2.50

R. Williamsianum xxxx 1 ft. H3 April

Thomsonii series. One of the finest dwarfs. Low, spreading with lovely heart-shaped leaves. Young shoots and leaves are a beautiful bronze color. Flowers are large, fine clear shell-pink bells.

R. Wilsonae x 3 ft. H3 June

A fine background plant for a rockery. Very dense growth and dark green narrow leaves. Dainty light pink flowers in June.

R. Xanthocodon A. M. xxx 4 ft. H3 Mid May

Triflorum series. A very fine upright growing plant with rounded blue-green leaves. Flowers in clusters, clear creamy-yellow bells.

R. Xanthostephanum xx 3 ft. H4 Mid May

This is from Dr. Rock No. 15 seed and the brightest yellow we have seen in a rhododendron. Narrow grey-green leaves and quite compact growing. Blooms heavily with dainty bell-shaped flowers. Needs protection.

CLOSED SUNDAYS

Gaultheria

These evergreen woodland plants associate beautifully with rhododendrons, or they can be used for ground covers or for the front of the bed. All are free flowering and then later have decorative berries in shades of blue and red, and some with white or black. Many have colorful fall foliage. In the west most of them do well in either sun or shade.

Adenothrix

Very desirable native of Japan with white flushed pink flowers in June. Up to a foot tall. Large deep red berries. Handsome deep green leaves. \$1, \$2

Cuneata

Reddish brown stems, leathery dark green leaves, white flowers in June followed by white berries. 1 ft. \$1, \$1.50, \$2.50

Forrestii

Described as being one of the finest plants discovered by George Forrest. Quite rare. Small branching evergreen shrub to 2 or 3 ft. with colorful red wood. Flowers are pure white and scented and have white flower-stalks. Very decorative in fall when globular fruits turn lilac-purple and finally a vivid china-blue. \$2

Hispidula

Deep green leaves turn red in autumn, white flowers in June and July followed by white fruits. 2 ft. \$1, \$1.50, \$2.50

Hookeri

Large netted leaves, white flower-sprays in June, grey-blue berries. 2 ft. \$1, \$1.50, \$2.50

Itoana

Probably the smallest of the race. Tiny leaves, white flowers and berries. 3" to 6" \$1, \$1.50, \$2.50

Miqueliana

One of the best. Apple-green leaves coloring nicely in fall. White flowers in June, then large ridged white fruits. 9" \$1 and \$1.50

Nummularioides

Heart shaped hairy leaves, pink bell flowers in June, black berries. 6" \$1, \$1.50, \$2.50

Oppositifolia

Said to be very nice with 6-inch panicles of white flowers and showy white fruits. \$1

Ovatifolia

A fine species rarely 6" high. Dark green oval leaves which color nicely in fall. Forms a dense mat. Pink flowers in June followed by scarlet fruits. \$1 and \$1.50

Procumbens

Green foliage, reddening in autumn. White flowers tinged pink in May and June. Holly-red berries. 6" \$.75 and \$1.25

Semi-infera

We have lost our description of this but it promises to be an upright growing shrub with nice leaves which color brightly in fall. It was given an Award of Merit by the RHS about 1951. \$1, \$2

Ground Covers

Cornus Canadensis

A true miniature dogwood. Likes shade forms large mats, small flowers surrounded by four clear white bracts. 6" \$1

Leucothoe Keiskei

Needs shade. Pointed, shiny green leaves, red stems, scented long ivory-white flowers in short sprays in July. Leaves colorful in fall. 8"-9" \$1.50, \$2.50

Loiseleuria Procumbens

Small shrub with tiny, rounded oval leaves. Forms a mat. Small white or pale-pink flowers. 6" Above describes the European form. We also have the Alaskan form with still smaller leaves. \$1

Pernettya Prostrata Pentlandii

Dwarf prostrate shrub 1 ft. high. White flowers in June followed by deep violet berries. \$1.50, \$3

Pernettya Rupicola

Serrated glossy leathery leaves. Almost prostrate in growth. New growth crimson. White flowers in May. Fruits rose-pink to red. \$1.50

Vaccinium Vitis-Idaea

Sprawling 9" shrub with bright green leaves and pinky-white flowers in May followed by red berries. Part shade or sun. \$1, \$1.50.

Minus

A more prostrate form. \$1

Helleborus

Helleborus (Christmas Rose) Herbaceous perennials. Hardy. Large palmately divided, dark green leaves. Established plants flower freely in winter and early spring.

Corsicus

Handsome serrated grey-green leaves. Greenish flowers. \$1 and \$2

Niger Altifolius

Considered to be one of the best. Blooms in February and March. White flowers often 4" to 5" when plants become established. \$2, \$3 and \$4

Fine Shrubs

Andromeda—Polifolia nana compacta

This is the true andromeda. A low compact dwarf shrub with grey-green foliage and light pink urn-shaped flowers in May. \$2.50

Ilex Crenata Helleri

An ideal holly for the rockery or front of border. Very slow growing, spreading, tiny green leaves, densely branched. 10" to 12" spread \$3, 12" to 15" \$5

Leucothoe Catesbaei

Beautiful green leaves which turn crimson during winter, long arching branches which bear spires of clear white lily-of-the-valley like flowers in May and June. \$2 and \$3

Leucothoe Populifolia

Graceful tall growing evergreen shrub to 10 ft. Arching branches, white bell-shaped flowers. \$2.50

Menziesia Ciliicalyx

Hairy dark green leaves with pendent bell shaped flowers like Pieris but changing from light green at base to purple at mouth. Slow growing to 3 ft. A beautiful shrub. \$3.50

Pernettya nana

A very dwarf form usually not over 6 in. high, very compact growing. Dainty white flowers followed by large reddish pink berries. \$2.50

Vaccinium Delavayi

A dense growing dwarf shrub with glossy green leaves, may grow 2 ft. tall in many years. Flowers white, flushed pink followed by rounded black fruit with a grey bloom. Given an Award of Merit in 1951. \$2

Vaccinium Mortinia

Is the most decorative of the Vacciniums. Very dwarf with small evergreen leaves, purplish-red in young growth, pink flowers and plum-purple fruits. \$2

Zenobia pulverulenta

Said to be the most beautiful plant of its kind, the best of the Lily-of-the-valley type plants. White-dusted leaves and long sprays of large white bells. Hardy and easily grown in light shade. \$2.50

Enkianthus

Deciduous shrubs with leaves and branches arranged in tiers. Bell-shaped flowers in pendent clusters at tips of branches. Brilliant autumn foliage.

Campanulatus 6 to 8 ft. May

Leaves and branches in tiers. Pendent clusters of cream lily-of-the-valley flowers, veined and edged with crimson. One year old plants \$1.50; 24" to 30" \$4.50

Cernuus var. Rubens 3 to 6 ft. May and June

Similar to above but more upright growing with cream-white to red flowers. Very beautiful. 24" to 30" only, \$4.50

Deflexus (Himalaicus)

A big shrub similar in habit to above. Larger 1-2" flower-bells, yellowish-red, veined with red in drooping clusters. Wonderful fall foliage. Scarce. 8"-10" \$2.50 10"-15" \$3.50

Pieris (andromeda)

Floribunda 5 ft. March-April

Dark green, oval, pointed leaves, sprays of small white, bell-shaped flowers. \$2.50

Formosa temporarily withdrawn.

Forrestii 5-8 ft. April-May

Our form has brilliantly red new spring foliage. Sprays of white flowers. Needs protected location. \$2.50 and \$3.50

Japonica 5 ft. March-April

Pointed and serrated deep-green leaves. Compact well-branched growth. Dark red flower buds and sprays of flowers which first come out light pink and quickly fade to white. This selected form has proved hardy with us and we think the flowers are larger than most forms. \$3.50, \$4.50

Mariana 3-4 ft. June

A lovely deciduous shrub, very hardy, likes sun. Big sprays of larger white flowers tinged red at mouths. Wonderful fall foliage. Small plants only this year. \$2

Taiwanensis 3-8 ft. April-May

A beautiful shrub. Brilliantly colored new leaves in spring ageing to deep shiny green. Very compact growth. Sprays of clear white flowers. \$2.50

Azaleas—Deciduous

Albrechtii

Beautiful bright rose colored flowers. 3 to 5 ft. April-May 15"-18" \$3.50, 18"-21" \$4.50

Occidentale

Rooted cuttings from a fine selected form. Dark green foliage. Lovely white flowers, flushed pink, with yellow blotch. Sweet scented. 10"-12" \$3

Reticulatum

Upright growing, dark green leaves, bright purple flowers. Very fine. 8"-10" \$1.25; 15"-18" \$3.50, 18"-21" \$4.50

Schlippenbachii

One of the finest pink azaleas. Large heart shaped leaves and large beautiful pale pink flowers. 6"-8" \$1.50; 15"-18" \$3.50, 18"-21" \$4.50

Tschonoskii

Small shrub with tiny white flowers. It's brilliant autumn coloring makes it worth growing. 15"-18" \$3

Knaphill Seedlings

Six years ago we raised these from seed imported from the English originator. Since then we have bloomed over 4000 and have found that there are many good ones still to be selected and named. These azaleas come in all shades of yellow, pink, orange, there are some wonderful whites and striking blends. Also a few deep reds. Many are ruffled and most are scented. Foliage is beautiful and colors brilliantly in fall. Flowers usually run from 2" to 4" across, sometimes larger. They are a great improvement over the mollis. As these are seedlings we cannot select colors until they bloom. Plants now are from 24" to 40" tall and heavily budded. Priced at \$4, \$5 and \$6. We are now rooting selected forms of these and named varieties from cuttings and next year hope to be able to offer a good selection of best varieties.

CLOSED SUNDAYS

Evergreen Azaleas

Freesia

A very fine seedling from Japan recently named. Low growing and very free flowering, small white freesia-like flowers. \$1

Gaiety

Medium height, spreading, bright clear pink, blotched rose red. \$1

Gumpo-Pink

Likes shade. Very low and compact and spreading with clear light pink flowers in June. Very hardy and a good ground cover. \$1.25

Gumpo-White

Similar to above but with large white flowers. \$1.25

John Cairns

Deep dark red. Spreading low growth. \$1

Ledifolia Alba (Mucronatum)

Lovely large flowered white. Widely spreading. \$1

Louise Gable

Low and spreading with lovely semi-double 2¼" salmon-pink flowers. \$1

Macrantha

Very low growing. Large salmon-red flowers in June. \$1

Palestrina

A large pure white flower with green spot. Hardy and one of the best. Medium growing. \$1.25

Purple Splendor

A medium growing plant with beautiful frilled dark purple flowers. \$1.25

Rosebud

One of the best. Low growing. Double pink-pearl rosebuds. \$1.25

Sekidera (Mucronatum)

One of the "top" evergreen azaleas. Big white flowers, upper petals marked with carmine. Widely spreading growth. \$1.25

WE USUALLY HAVE IN STOCK:

Actinidia Kolomikta, a fine foliage vine.

Schizandra Propinqua, a vine related to the magnolia family.

Acer Ginnala and several forms of Japanese maples.

Styrax Japonicus, the snowdrop tree

Halesia, *Franklinia alatamaha*; *Cornus Capitata* and several other dogwoods.

We are constantly adding to our collection of rhododendrons, fine shrubs and small trees and usually have on hand a few of many scarce plants. Ask us.
